

We caught

Ada smiling!

By Monty Siekerman

The Ada Icon caught the smiles of many people in 2017.

Here are just a few of them. We had to quit reviewing photos because there were just too many smiles... can there be too many smiles?

These photos extend from January to early March. The Ada Icon camera caught local residents and ONU students happy doing many things: serving others, winning at sports, having fun, even working.

Are you or your friends pictured?
